INTERCAMBIO

The **INTERCAMBIO** project is an EU-funded project that aims to promote mental and physical health of workers in work environments that are rapidly changing due to climate change, implementation of new sustainable working practices, and among workers in green jobs.

The INTERCAMBIO project includes 14 partners in eight countries in South, Central, and Northern Europe who will conduct a range of research studies with workers in key jobs and industries in Europe.

This project has received funding from the European Union's Horizon Europe research and innovation programme under the Grant Agreement No. 101137149

We are members of the **WISEWORK-C network cluster**
www.wisework-c.eu

Project coordinated by:

The role of INTERCAMBIO

- 1 Work environments are rapidly changing in Europe.
- 2 There is an increasing awareness of the importance of mental and physical health of workers and fundamental interconnections of work, health and well-being.
- 3 Climate change is shaping the future of work on an unprecedented scale.
- 4 European economies are undergoing transformation and reorientation towards sustainability.
- 5 Workers have a fundamental right to decent and healthy working conditions.
- 6 There have been calls towards inclusive green economies ensuring social protection, and the creation of decent green jobs.

INTERCAMBIO

is uniquely positioned to examine key research questions regarding worker health.

The aim of **INTERCAMBIO** is to promote worker health in the context of climate change and the green transition.

INTERCAMBIO will promote evidence-based interventions and a framework for social protection and decent green jobs.

INTERCAMBIO will:

Promote the most advanced research **tools** and methods

Evaluate potential short-term and long-term mental and physical health effects of occupational **heat, cold, and solar UV radiation exposure**

Evaluate impacts of **specific workplace interventions** on mental and physical health of workers in key jobs and industries

Model socio-economic **impacts of workplace interventions** and to develop a policy framework for social protection and decent green jobs in Europe

Coordinate multi-level **stakeholder engagement** and development of a new health research agenda

We are conducting research **in these 5 industries.**
